

Compsystems Pro-Spec Flat Change Gear Knob

Brand: Competition Systems

Product Code: 60-594A

Availability: In Stock

Weight: 0.20kg

Dimensions: 20.00cm x 10.00cm x 5.00cm

Price: \$990.00

Short Description

Pro spec flat shift system with strain gauge gear knob and bi directional shift sensing for upshift cut and down shift blip.

Description

This is Pro Spec flat shift system with bi directional sensing from a load cell built into the gear knob.

Features

Designed for use with sequential gear shift or H-pattern (upshift only) systems

Provides output for fore or aft force

Billet aluminum construction

Sophisticated strain gauge sensing for better configurability

Comes with signal amplifier adjustable for gain

Can also be used on shifter karts
